EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Karl Schwappach on 4/28/06.

The application has been amended as follows:

Amendments to claims 40,58, and 59:

Claim 40 (currently amended): A therapeutic apparatus for a patient comprising.....a linking mechanism adapted to move the first body supporting portion along a a processor adapted to store at least one pre-programmed traction protocol; wherein the first actuator is adapted to move the first body supporting portion along the longitudinal axis without interfering with movement of the first body supporting portion along the path comprising at least one rotational degree of freedom.

Claim 58 (currently amended): A therapeutic apparatus for a patient comprising:..... linkage-linking means for.....first body supporting portion along the path comprising at least one rotational degree of freedom.

Art Unit: 3743

Claim 59 (currently amended): A therapeutic apparatus for a patient.....linking means **for** ~~adapted to moving~~ **ing** the first body..... pre-programmed traction protocol.

2. **The following is an examiner's statement of reasons for allowance:** As to claims 1,28,37,40,56,57, the prior art does not teach nor render obvious the overall claimed combination of a therapeutic apparatus having a **first actuation adapted to move the first body supporting portion along the longitudinal axis without interfering with movement of the first body supporting portion along the path comprising at least one rotational degree of freedom** and as to claims 58 and 59, prior art further does not teach nor render obvious the overall claimed combination of a therapeutic apparatus having **linking means for moving the first body supporting portion along a path relative to the second body supporting portion, the path comprising at least one rotational degree of freedom**. Therefore, the invention defined in claims 1-5,7-59 is considered novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shumaya B. Ali whose telephone number is 571-272-6088. The examiner can normally be reached on M-F 8:30-4:30.
